OUR STORY WHO WE ARE

Kadeli Atelier is an interior architecture and design studio based in Dubai and Budapest, Hungary that creates exceptional spaces worldwide. Our family business grew out of a love of form, material, colors and indoor space sense and we have a great deal of experience creating unique spaces for both residential and commercial clients.

Our interiors showcase signature designs that are understated yet sophisticated, straightforward, functional and elegant. Balance, light, space and color factor into every design, creating a timeless effect. We have a desire to do it better, seeking out new materials, new techniques and constantly striving for excellence in quality and delivery. We have the expertise and personnel to blur the lines between Designer and Client mindset and make the communication smooth.

Designing anything, from the details of a table to the interiors of a whole estate, is still a great and exciting project to us. It is always a process. We look for the story, the idea and goals of our clients to create something new for present and future. We love what we do and come to work every day with unparalleled vigor, drive, and dedication.

WHAT WE DO

The most important aspect of our work are residential buildings and family residential design. Beyond beautiful conceptual drawings, we have the technical expertise to ensure that every single detail is constructed with care and precision. Our interiors showcase signature designs that are clean yet sophisticated, straightforward, functional and elegant. Our central idea is that every client has a vision and story and that our creative environment is a great vehicle for telling it.

We think of this process as bespoke design—and we apply it to every service we offer. Nowadays working in the creative area is full of endless opportunities and we're excited about see what's happening in the design world and thrilled to be a part of it.

INTERIOR DESIGN

HOW WE DO IT

IDENTIFY LISTEN

We partner with our clients to make the best of the collaboration. The difference between us and everyone else is that we listen. As much as it sounds simple, but listening is something major and we're intentional about it. Every project starts with getting to know you and your vision, talking through your goals and learning how we can help to reach them.

VISUALIZE

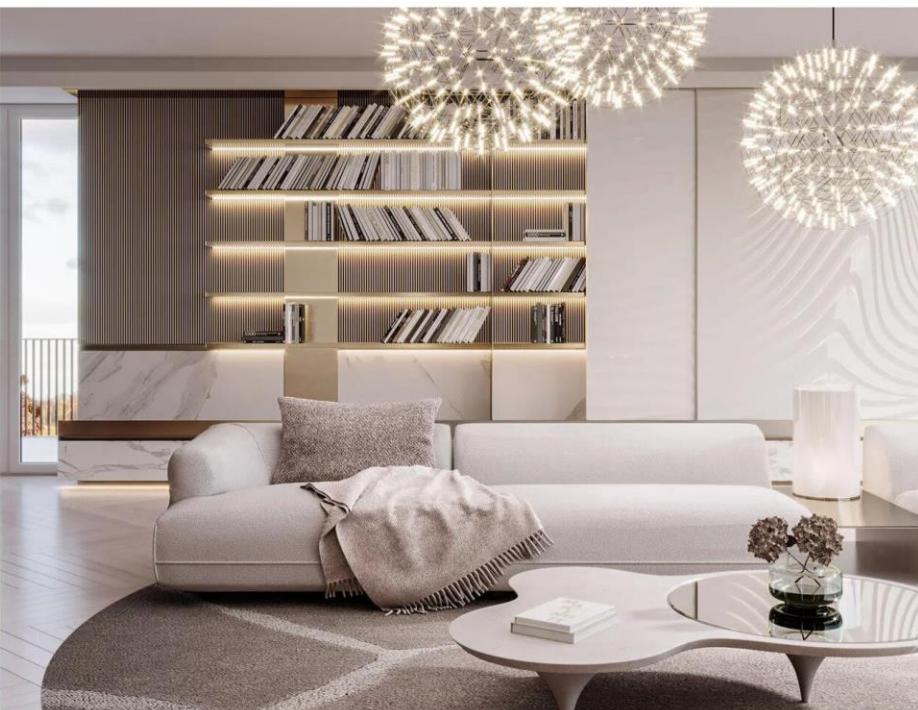

We Visualize for our clients. We compose a collection of images to communicate and describe form, color, texture, detailing, functionality, environment and sentiment. From this, a vision directive is articulated and this is the direction that leads the rest of the project. We believe every project is different and deserve full attention and open thinking. Every client has specific goals, and part of our process is understanding what resources we can leverage to best serve your needs.

CREATE

We turn your ideas and the concept plan into a tangible space by creating a visual language through photorealistic 3D design. It means you are able to get the real feeling of the space. This is when ideas become reality.

OUR TEAM

We are proud to have a multi-disciplined and diverse team that gives us the expertise to push boundaries and create strong sense of places. We are experienced in all forms of luxury design, from a large-scale bespoke joinery and custom-made signature items to the details on magnificent fabrics. Our designers will program, develop concepts, and envision with you. We work closely with our clients to address their challenges, design objectives and allowing the project to be driven by your vision and our experience. Your designer lead then carries the project through to completion, ensuring that you are supported and managed all along the process. Together we craft accurate design solutions, because fresh ideas are born out of collaboration. We believe it shouldn't be complicated to work with an architecture and design firm.

SERVICES

INTERIOR ARCHITECTURE

We take a deep and comprehensive overview of each project, so we can be sure that every aspect of the scheme is in line with the clients brief. The design team consider the best way to creatively explore and enhance every aspect of the spaces, implementing functionality alongside elegant and luxury aesthetics. The space planning, the furnishing, all the materials, the quality of light and the choice of art are coordinated as part of the overall design. We will lead you through the different stages of the project: Design Concept, Schematic Plans and Detailed Design Package supported with technical drawings, material specifications and 3D design. Our overall design package includes coordination for automation, mechanical and electrical design, as well as lighting systems.

INTERIOR DESIGN

Our professional and sophisticated design team is adept at bringing to fruition the vision of the clients. Our interior design service is comprehensive including a selection of furniture, material, lighting and project coordination. The extensive and detailed presentations are the first stage of any projects. These presentations will include inspirational moodboards and photo-realistic 3D renders, in addition to floor plans and a collection of sample boards featuring color palettes of materials and fabrics. This service supports all stages of the projects from concept to completion and aims to create the most exceptional solutions drawing upon timeless luxury and intelligent design.
